# Gabriel H. Dalmoro

*A fervent learner with an insatiable curiosity*

## Full Stack Developer

Addicted to adrenaline and have a relentless drive for an unquenchable thirst for adventure. My grit and perseverance is what empowers me to be a part of the technological breakthroughs. As a passionate solutions artist, I am constantly asking meaningful questions and actively listening with the intent of understanding. My goal is to always grow my knowledge and improve systems, both for myself and for my team. I'm adaptable, I enjoy cultivating connections, and would love to be a part of a team that embraces my energy.

## Professional Summary

### Project 1 - Command Line Adventure Game (Individual project)

- Text-based adventure game running on the terminal.
- Learned GIT fundamentals and implemented basic semantic versioning on commit messages.

### Project 2 - FunActive: Weather based physical activity recommendation website for Calgary (Group project 1)

- Implemented fully hashed and secured authentication features for registering and logging in, storing user information on database.

### Capstone Project - Harpia: Local tech startup in Calgary; Mobile app for hockey athlete development (Group project 2) - PROJECT LEAD

- Project Leadership role: efficient and professional communication with product owner, scrum master, and developer team.
- Mobile app build and release process followed through iOS App Store and Expo EAS build.
- Business-problem-directed development, with consistent effective communication with product owner, to ensure scope and MVP of project aligned with Harpia's vision and goals.

## Work Experience

### Lake Louise Ski Area - Guest Services Attendant

09/2021 - 02/2022

- Assisted with all guest services tasks and responsibilities during the peak busy season.
- Coordinated with ski resort staff to improve efficiency of Calgary office Ski Card order fulfillment, saving an average of 40 minutes per 100 cards.
- Led marketing events for passes and to increase revenue by 30%.

## LinkedIn

[linkedin.com/in/gabrieldalmoro/](https://linkedin.com/in/gabrieldalmoro/)

## GitHub

[github.com/Gabriel-Dalmoro](https://github.com/Gabriel-Dalmoro)

- Responded calmly and professionally to guest complaints, resolved issues promptly, escalated to management when necessary and contacted emergency responders when required.

## Testimonials

“I honestly can't say enough about how well Gabriel handled our situation; it has been the type of customer service that you always hope for but rarely get. Ski Louise is fortunate to have someone like him working for them, and he really helped us feel like we have made the right decision!”

**Josh Jenkins – Customer at Lake Louise Ski Resort**

“I was lucky to have worked with Gabriel on our project. He immediately took the lead and communicated with our team on a consistent basis providing updates and asking questions about the product we were building. He not only has a strong understanding of application development but also understood the business implications of the product we were building and took the time to educate himself on the audience we were building it for. His leadership was paramount in delivering our product on time and in scope.”

**Zach Hodder – Harpia CEO, Product Owner**
